

# Team Meeting

29 APRIL 2022 / 12:00 PM / ZOOM

## Attendees

Zexi, Stefan, Xavier, Ate, Nancy, Jiadong

## Agenda

### Feedback

1. Some ideas of potential results
  - a. Robust algorithms that can apply to all datasets
  - b. Fast algorithms can't be transferred, but fast for training, use cross validation (on different datasets) to validate

## Notes

- 

## Action Items

1. Dataset(The idea of Transfer Learning):
  1. Random forest
  2. First, choose Lasso
  3. Find the coefficients with the methods in paper
  4. If a dataset is transferable(the same domain), or an algorithm is robust enough
