

Team Meeting

24 MARCH 2022 / 9:00 PM / ONLINE

Attendees

Xavier, Stefan, Nancy, Zexi, Ate

Agenda

New Business

1. Predictor section(penalized linear regression)
2. How to choose P values for processing data (get rid of data)
3. The code used Covariates as predictors
4. The code used Partial Least square but not glmnet
5. Ask access for HumanMethylation450, For client's email
6. Ask the client if they want to use the existing classifier from the paper and apply it to their dataset or if they want us to improve the existing classifier.
7. Let the client know that we have no biology background.

Action

1. HumanMethylation450 ask the author for access (Ate)
2. Ask the client for access to their datasets (Ni)
3. Confirm the claim model is not what's written in the code (Zexi).
4. Ate created google doc summary file
5. Zexi signs the legal
6. Read papers and explore the code and data (All)
